# A Highly Reliable and Versatile Smart Signage

#### The All-in-One Smart Solution for All Businesses

SL02K series digital signage is the total package suitable for businesses of all kinds. Being the world's first digital signage to achieve Pantone Validated status, SL02K assures on-screen color fidelity and matched interoperability with Pantone-qualified color production devices. SL02K offers additional color adjustment flexibility with its fine-tuned custom color modes, fulfilling the needs of professional designers for different types of artwork. The stunning 4K UHD resolution delivers breathtaking visuals to captivate customers. The powerful X-Sign software facilitates effortless content creation and management, while the DMS application guarantees hassle-free display control. To further streamline the day-to-day operation for businesses, SL02K offers the all-in-one, clutter-free solution that fits perfectly into most neatly organized spaces. Empowered by the highly reliable PID, SL02K is designed to meet the highest standard to ensure optimal, nonstop operation. SL02K is the solution that saves you time, efforts and resources all at once.

## Excellent, Durable Display Performance

#### PANTONE® Color Mode

As the world's first PANTONE validated digital signage, BenQ SL02K offers a validated color accuracy, fulfilling the absolute consistency and precision that designers need. BenQ Pantone Mode provides an end-to-end solution from design and production via monitors to in-store deployment and broadcast via digital signages for retail display integrators, fashion trendmakers, product brands, and design studios who trust the Pantone system to deliver accurate

\*PANTONE® Colors generated may not match PANTONE-identified standards. Consult current PANTONE Publications for accurate color. PANTONE® and other Pantone trademarks are the property of Pantone LLC. © Pantone LLC, 2020

#### Flexible Color Adjustment for Different Modes

In addition to offering Pantone validated color fidelity, SL02K features additional color adjustment flexibility with exclusive Cinema, Photo, and M-Book modes. Fine-tuned to accentuate spellbinding motion video, vibrant still images, and precision design work, these custom modes help to create impactful content and deliver engaging interactions.

#### Cinema Mode

In Cinema mode, BenQ SL02K subtly showcases the images displayed in high-contrast, added depth ar dimension, and with vibrant and saturated colors even for motion pictures. Images on the smart panel will become the eye-catcher to captivate your customers in no time.

#### Photo Mode

The still images displayed in BenQ SL02K's Photo mode deliver saturated, vibrant colors in detail to showcase the delicacy of your products from any angle. The precise color performance without distortion of BenQ Smart Signage can be very useful for designers to make your products more

#### M-Book Mode

As the majority of designers use MacBook or iMac to create their artwork, BenQ exclusive M-Book mode showcases the images displayed on the digital signage close to the one on your M-book. This ensures the original piece of work is similarly represented as intended.

Others

#### Powerful Performance & Drive

The combination of 32GB system storage and 4GB RAM memory ensures delivery of smooth, seamless display performance at all times, even while the smart signage is multitasking between applications.

#### 4K2K UHD Unparalleled Clarity

An ultra-high definition resolution of 4K2K (3840 x

2160) offers not only the most exquisite image details for an optimal viewing experience but also four times more information and workspace than a 1080p full HD display,enhancing your efficiency and productivity.

#### 24/7 Non-stop Operation

An amazing life of 50,000 hours translates to years of non-stop display service and reliable industrial-class performance far more economical than consumer models. Built with better cooling techniques reaching longer runtimes of up to 24 hours a day that is safer and more reliable.

#### Flawless Display in Portrait and Landscape View

Unlike anything else available on the market, BenQ Smart Signage displays are built to ensure flawless portrait and landscape view. This choice between vertical and horizontal installation greatly increases flexibility when operators are designing and arranging their stores.

### Easy to Install

#### Lightweight Design

Our smart signage displays can be easily mounted or rearranged to suit diverse uses, which saves you plenty of costs and manpower on signage installation, and eventually facilitates different display configurations in stores, offices, and other commercial establishments.

#### Slim & Stylish Design

A narrow bezel and slim design boasts a stylish outlook befitting any in-store environment, whether it's a trendy café or a sophisticated boutique store.

## Integrated X-Sign 2.0 Software with Smart Signage Content Templates

#### X-Sign Designer

BenQ's X-Sign 2.0 takes the hassle out of designing signage content. Included with SL02K, BenQ's exclusive X-Sign software provides content templates, making it easy for operators to quickly design and roll out new promotional material. The templates also let operators add images, videos, and scrolling text to their marketing materials. The long-size templates let operators create marketing content easily while the ability to enrich materials with media content will boost the store's bottom line.

#### Centralized Remote Display Management

X-Sign's intuitive interface makes it easy for operators to monitor and manage all remote displays from a central, off-site location. With X-Sign, operators can keep tabs on display performance in real-time and receive instant alerts about any issues. Loaded with functionality, X-Sign also allows operators to see what content is playing on each display, manage updates, restart displays, and manage screen on/off and volume settings.

#### Instant Price Updates

Updating prices and other fluctuating content is easy. Operators just need to modify a centralized .csy file in the cloud.

## Broadcast YouTube Live Streaming across Multiple Displays

With X-Sign, operators can insert live YouTube broadcasts of product launches on Smart Signage in real time, which makes promoting new products instant and easy.

#### Real Time Messages

X-Sign lets operators push real-time messages to the display network to create instant excitement.

#### QR Code Interaction and Analysis

X-Sign allows operators to embed QR Codes that, when scanned, can offer customers the latest promotional information. X-Sign also offers QR Code analysis to let operators see when and where customers are interacting with content. This analysis can help operators quickly adjust their offers to match customer interest.

### More Features

#### DMS Local

DMS Local is a Device Info and Management software based on windows OS. For users who would like to control your displays remotely via LAN, you can download DMS Local software for your operation.

#### MDA (Multiple Display Administrator)

For users who would like to control your displays remotely via RS232, you can download MDA software for your operation.

#### SL7502K

#### SL8502K

## Input/Output Terminals

No.	Name	Description
0	HDMI OUT	Connects to display devices with an HDMI input.
2	LAN	10/100 LAN interface, connecting RJ45 terminals.
3	RS232	Serial interface, used for mutual transfer of data between devices.
4	AUDIO OUT	Connects to an external audio device (such as a speaker, stereo system, or headphone) to output the audio that is supplied by the video source.
5	DP	Connect a video source to a display device.
6	HDMI I	Receive 4K2K 60Hz supported signals from an external device.
0	HDMI 2	Receive 4K2K 60Hz supported signals from an external device.
8	AUDIO IN	Receives audio signals from an external device.
9	VGA	Receive analog RGB signals from an external device (such as a computer).
0	3.0	Access multimedia files on USB drives directly.
0	2.0	Access multimedia files on USB drives directly.
